There was a good crowd at the Gas City school house last Friday to hear the address of Hon. C. E. Corey. It is customary at the restaurants in informing the cook what kind of a meal to dish up to yell the name of the meat order, thus: "One on the fish," "One on the steak," "One on the pork." Today a waiter at the Our Way varied the pork order by calling "One on the hog," and the proprietor delivered him a lecture at once.

The following from the Hutchinson News will recall that Miss Doran recently edited the LaHarpe Argus in this county:

"I. Sheppard has sold the Maehsville beam to Miss M. L. Doran who has changed the name to The Argus, which she says will be a strictly nonpartisan, local newspaper." Miss Doran pauses, however, to place her endorsement on Robert F. Bradley, the Republican candidate for state senator, by saying that "Bobbe is all right and a good and gentle fellow, but then everybody believed that reputation of politics."

Miss Maude Hohlengreen, a farewell party to Miss Bertha Rudow at her home on North Walnut last week. Miss Rudow expects to leave soon for Crowley, La., where she will make her future home. Mr. and Mrs. A. G. Charles returned Monday to their home in Illinois after a good long visit here with his brother, A. P. Charles and family. The Lanyon Zinc Company invited the teachers of the city schools to come out and go through the works some time so last evening headed by Superintendent Mitchell they accepted the invitation. Mr. Davies, one of the book keepers at the works, took upon himself the task of showing and explaining the workings of the great factory and did it in a pleasant, entertaining and profitable manner. It was a very kindly thing for the Zinc company to do and the REGISTER feels sure that the teachers all appreciated.

Dr. G. C. Glynn has been trying for two weeks to close up his business here as an eye and ear specialist, as he has been compelled to make a change of climate owing to his wife's health. He left last Saturday for McLouth and go later to New Mexico. The doctor has been here but a year or two but he has built up a fine business and when his patients learned that he was thinking of leaving they flocked to his office in such numbers and were so importunate for final treatment that he has delayed from day to day for two weeks. The friends of Mr. and Mrs. Glynn hope sincerely that the change may thoroughly cure Mrs. Glynn and that some day they may return here.

The REGISTER enjoyed a call this morning from Mr. Ed. Griffin, of Old Grove, Wis. Mr. Griffin owns property between Iola and Fort Scott and also a farm near Pleasanton and he has been taking the REGISTER for several years to keep posted on the local news. He declared that while he had read with amazement the accounts of Iola's growth he found that the facts exceeded the statements made in the paper.

It is very wicked to bet, but there are a lot of Republicans in this wicked town, who think that there is little or no element of chance in putting money up on their belief in the results of the November election, both state and national. And practically the entire Democratic party has suddenly "seen something" and been converted to the deep resolve that putting up money on elections is gambling and wicked.

A letter from Mr. D. B. Stevens, of Iola, who is traveling in Oklahoma, says that he is stopping with an ex-Confederate soldier, J. C. Seymour, who served with the 18th Texas Cavalry in the Civil war, under Col. H. Darnel. At Arkansas Post he gave his belt to a lieutenant in an Illinois regiment together with other valuables, and his starts to a Major in an Ohio regiment. He said he would like to hear from either or both of them. His address is Blackwell, Okla.

One man who attended the Brewster meeting last night swore that before one Populist or Democrat entered the hall seventy-five Republicans took seats, thinking it was a Republican meeting. They stayed until the speaker became warmed up and got into the flag furling talk and then a procession started in the front row and out they went in two and threes until at the close of the meeting George Ferguson and Cash Elson were left alone and raised a mighty cheer.

Sam Gard, and John Goshorn were out in the country recently in Salem township trying a lawsuit, Will Mangen having sued Tom Fitzpatrick because the latter had not made up the cane which he hauled to the latter's mill into sorghum. The same case was tried once before and the jury hung. And at last reports this jury is still harging.

Humboldt Union: Rev. A. M. Weikmann's connection as pastor of the Catholic church of this town will soon cease, and we understand that he is to be transferred to Elliptwood, in Barton county, where he will have a large influential congregation. Father Weikmann is a whole-souled, liberal minded man, and as a scholar and minister ranks high in his church. He has many friends both in and out of his church in Humboldt and one and all will be sorry to learn that he is to leave us. May his lines be cast in pleasant places. Rev. A. J. Abel will officiate as pastor here till Father Weikmann's successor is appointed.

Genesee, Wis., June 25, 1900.

Kingman & Co., Peoria, Ill., Gentlemen:—My father bought one of your Klondike plows and I plowed nearly twenty acres with it. It works like a charm. It pulls easy on the horses and the foot-lever works fine. I am just eight years old.

PROSPERITY EVERYWHERE

Factories, Railroads, Cigar Makers and Insurance Companies Feel Good Times.

THE WOOL TARIFF WORKS WELL.

Commissioner of Labor Carroll D. Wright Proves That Wages Generally Have Been Increased—Insurance Business Good—Freight Cars Needed.

Washington, Oct. 17.—There has been a wonderful improvement in woolen manufactures during the last few years, due to the beneficial effects of the Dingley tariff law. Our imports of woolen manufactures are now less than one-third the value of those of 1895, while during the last ten years the exports of woolen manufactures have more than trebled.

During the eight months ending on August 31, 1900, the imports of woolen manufactures amounted to \$12,084,928, against \$40,667,044 in 1895, and \$9,544,094 in 1896.

On the other hand the exports of woolen manufactures have slowly but steadily increased, advancing from \$268,000 in 1890, \$470,725 in 1895, \$614,678 in 1896, \$144,512 in 1897, and \$717,689 in 1898 to \$886,030 in the eight months of 1900.

WAGES GENERALLY INCREASED.

A Comparison of Reliable Figures That Is Conclusive.

Washington, Oct. 17.—Carroll D. Wright, commissioner of labor, has issued a bulletin showing the rate of wages in various occupations for a period extending back to 1891. The data were secured directly from the pay rolls of establishments in all sections of the country. It pertains to 148 establishments, representing 26 industries and 192 other occupations. The comparison follows:

Year.	Relative Wages.	Year.	Relative Wages.
1891	100.00	1896	97.92
1892	100.00	1897	98.96
1893	100.00	1898	98.79
1894	100.00	1899	101.54
1895	100.00	1900	103.43

TRADE AWAITS ELECTION.

Wholesalers Withhold Business Until Campaign Is Over.

New York, Oct. 17.—A general complaint about the weather, and some concern as to the result of the coming election, have been the features of the dry goods trade. Cotton goods have shown a tendency to advance. Dress goods are doing well, with strong inclinations towards plaids and Oxford. The silk trade has been quiet. Spring lines are being shown by advance salesmen. Linens are quiet. Complaint is heard of slow deliveries of underwear. The advance spring sale has not been up to expectations. It appears to be due to a desire to wait until after the result of the election is known.

INSURANCE POLICIES.

Certain Indication That Prosperity Has Reached Workingmen.

Chicago, Oct. 17.—F. A. Jackson, local cashier of the New York Life Insurance company, said:

"An interesting indication of the fact that remarkable prosperity has come to the working classes of the city is that, while the value of our policies has about doubled within four years, the policies which in the aggregate pay us best are for \$1,000. That means, of course, that the increase has come from people who four years ago were too poor to insure their lives for the protection, in case of death, of widowed wives and orphaned children. The life insurance business is quickly affected by good or bad times. Premiums are now paid promptly, and the benefits of life insurance have been extended to working people as never before."

PROSPERITY AUGURS.

Facts About Cigars.

Washington, Oct. 17.—Over 2,700,000,000 more cigars were produced in the United States under President McKinley's administration than under Cleveland's. At an average of 65,000 cigars per man per year, it would require more than 10,000 cigar makers to supply this increase in production, and this does not include the additional number of people necessary to supply this extra 10,000 men with material.

B. & O.'s New Freight Cars.

Baltimore, Md., Oct. 17.—The Baltimore & Ohio Railroad company has just let a contract for the construction of 6,000 new freight cars. Of the entire number, 2,000 will be coal cars of 50 tons capacity, and the rest will be 45-ton cars for general merchandise and coal and ore.

More Steel Rails Wanted.

Philadelphia, Oct. 17.—The Reading road has just placed orders with the Pennsylvania and the Lackawanna Steel companies for 25,000 tons of steel rails. The price is said to be \$26 per ton. Another large contract for rails soon to be let is that of the Baltimore & Ohio, which is preparing specifications for 40,000 tons.

A Mathematical Question.

Johnny—Say, pa?
Mr. Grinkham—Well, what is it?
"Why, I just was thinkin' that if the man that invented the multiplication table didn't know it already he must have had a tough old job on his hands; and if he did know it already, what was the use of him inventin' it?"—Puck.

Meteorological.

Sallie DeWitte—That's Mrs. Allie Monigh. She has been married and divorced five times.

Noel Little—How remarkable for one so young in appearance! Her matrimonial reigns must have been very short.

"More showers!"—Brooklyn Life.
